Detailed Action

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claims 1 and 3-22 are still rejected under 35 U.S.C. 102(b) as being anticipated by Purewal et al., (USP 5,225,183).

Applicant's arguments filed August 27, 1999 have been fully considered but they are not persuasive. Note that "substantially free of surfactant" does not exclude the presence of a surfactant in the formulation. Hence, the argument pertaining to the surfactant is not found persuasive. Furthermore, note that the applicant's specification nowhere excludes the incorporation of a surfactant in the aerosols.

Note that the burden is on the applicant to prove that the prior art product does not necessarily or inherently possess the function or property relied upon by applicant for novelty. *In re Best* 195 U.S.P.Q. 430.

No claims are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1615

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
